

MAC Magic Trailer Wash

An organic acid cleaner for polished aluminum

Fast Acting - Reduces labor

Will not harm glass or paint

Least hazardous acids - Safer for the user

Versatile - Use on polished and older aluminum

Non-Flammable - Safer, may be used where flammables cannot

Description:

MAC Magic is a quick acting, mild-acid, product designed for cleaning aluminum trailers without damaging polished aluminum. This unique formulation leaves no residue, is non-flammable, dilutes with water and contains no dangerous solvents.

Applications:

MAC Magic is to be used to clean new aluminum trailers without any loss of shine and to clean light or moderately dull trailers.

Dilution:

MAC Magic is diluted at 28 ounces per gallon.

Odor:..... mild
pH:..... concentrate 2.0 ±0.5
Flash Point: None
V.O.C.:..... 0%
HMIS® III: H:1 F:0 P:0

GHS Pictogram:

Directions:

Use personal protective equipment appropriate for the job. Apply MAC Magic by using an acid resistant pump sprayer or brush. Always start at the bottom of the trailer and work to the top to avoid streaks in the aluminum as you uniformly cover the surface with the brush or sprayer. Rinse well starting at the top and work down to prevent streaking.

Chemical Spray System:

Damon-SEKO 28400100

Packaging:

1 Gallon Jug-	28400201
5 Gallon Pail-	28400205
55 Gallon Drum-	28400255
250 Gallon Tote-	28400250
